

# TGC WILDFLOWER PRESERVATION—ENDANGERED/THREATENED LIST

BONNIE BAKER, CHAIRMAN  
2023 SPRING CONVENTION

In order to acquaint the public with their beauty and to encourage their preservation, the native plants on the Wildflower Preservation List (Endangered/Threatened) should not be exhibited in a Flower Show unless it is grown by the exhibitor & so identified. Exhibits that do not conform should be disqualified. Photos of the plants can be found at [www.tpwd.texas.gov/education-plants](http://www.tpwd.texas.gov/education-plants). Members are encouraged to promote the propagation of endangered species by utilizing them in their landscape with the long-term goal of removing them from the "list." A success = Johnson's *Frankenia* was removed in 2019. Threatened went from 6 plants to 15, March 30, 2020. No plants were added or removed from the list since spring 2021. 3/7/2023 BB
